KIP ONLINE

With the changes we have all seen over the last few months with Covid 19, we have moved most of our tuition services online.

We have been impressed with all our students and parents who have joined us in this journey. Clare has even managed new assessments, dyslexia and dyscalculia screenings online so we are able to help more children and those who live further away.

CLARE IS BACK STUDYING...

Clare began her MBA at Lincoln Uni a year ago and is enjoying the challenge of studying again, this photo was taken in the lecture theatre before lock down; she also is having to study using an online platform.

We are planning to run Cellfield again over the summer and expect to be able to offer this in centre, though Cellfield Head Office are working on an online version so do contact us if you would like to receive updates about this, this again would allow us to offer Cellfield locally, nationally and globally. Please see below some of our Cellfield success stories.

My name is Lucy and this is my Cellfield story

From a young age we always knew something wasn't quite right. Going to school every day thinking I was just stupid and I needed to work harder. No matter how much I tried, it never made any difference. Leaving primary school with very insubstantial SATs

grades I just presumed it was all my fault. Carrying on my education in Secondary School, being in the lowest sets for everything, not getting any support, it made me feel so down and I had no confidence in myself at all. The final year of Secondary School came and my GCSEs were the worst I could imagine. I had nothing. I felt like a failure and I was never going to be a nurse and get my dream.

My mum found out about Kip McGrath and booked me in with Clare. I was thinking nothing would change and it would be the same old story - that I just need to work harder but it was the total opposite. In fact it was the worst news I could have heard - but also the best news. I got a 2.2 in a dyslexia test, some of the highest numbers there are. It was from there that I felt the relief that it wasn't that I needed to work harder, it was that I needed help and support.

Cellfield was my only option. I completed Cellfield in 6 days (normally it's a 10 day course of intense work). It completely changed my life for the better. I now have

managed to go to college completing my A Level in Health and Social Care - receiving a grade B. I'm now on my way; studying for my dream of becoming a children's nurse. Passing assignments that I would have never dreamt of passing made me realise how much Cellfield and Kip McGrath has actually changed me.

Clare from Kip McGrath was my rock through it all, she started my journey and my journey is still going and the support I still receive is amazing. This was such an emotional experience for myself and I shall never forget what I was told: I can do anything as long as I am determined and put my mind to it. Anyone who is wanting to change their life, whether they're adults or children, it's the best experience you will ever have.

Lucy recently graduated with a foundation degree in Health and Social Care. She will start the second year of her nursing degree in September.

My son **Freddie** has been struggling with spelling, reading and maths for the last few years. I heard about Cellfield but was very sceptical as to the amount of benefit it would achieve.

I can honestly say that Freddie is a different child and can now easily perform tasks and reads fluently!

Can't thank Clare and the team enough! Highly recommended.

Jack Atherton

Jack attended the Cellfield course last August, in 6 short months he has made so much progress with his reading, and his writing has improved massively as well as his confidence. He has gone from being extremely quiet, frustrated and constantly leaving school upset to a happy confident boy who actually comes home and talks about his day. The difference in him is amazing and he continues to work really hard to keep improving. I can not recommend Clare and team enough. The work they do is invaluable for children who struggle from dyslexia and we can not thank them enough for everything they have done and continue to do for Jack.

Jack completed the Cellfield course over the summer holidays; I can not even begin to explain what a difference it has made to his life.

His reading is coming on in leaps and bounds and he actually enjoys doing it now, whereas before the very thought of it filled him with dread.

He started Year 6 in September, not only has he been chosen for star of the day on numerous occasions, his

parents evening report was outstanding!

The difference in his work is amazing, last year especially in English we were lucky if he would complete half a page but this year he's writing pages of content that not only makes sense but is written beautifully.

He is getting better everyday and I put it all down to the amazing Kip team. It's so lovely to see his confidence and love for school growing.

I can not thank or recommend you guys enough.

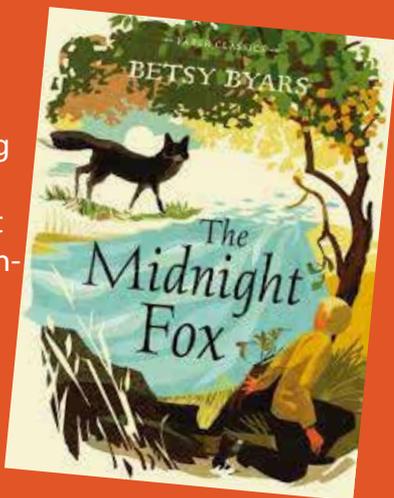

Overcome Dyslexia and similar processing issues

Cellfield is a unique, effective and sustainable approach to helping with dyslexia and other reading and language processing difficulties/issues

EXTRA WORKSHOPS

During lockdown some of our students have engaged in some extra workshops, from reading *The Midnight Fox* together, learning about acids and alkalis and non-Newtonian substances, 11 plus advanced skills and soon to be added coding and art. If you would like to add these to your child's learning programme, do contact us.

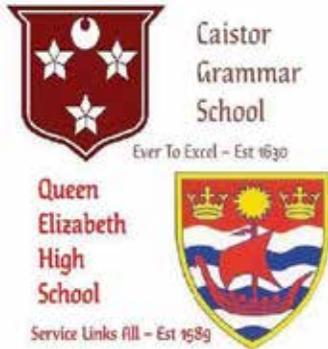

First News

This is a great newspaper aimed at students aged 8-14

This can be delivered in print straight to your door. If you are interested in an electronic copy or weekly online activities linked to this, we have some trial licences available.

Only 45% of students pass the 11 plus and not all of those will secure a place. With a 95% pass rate we can give your child the tools to succeed.

QEHS at Gainsborough have confirmed that they will not offer mock exams as planned in June, but the tests will take place in September:

Saturday 19th September Verbal Reasoning
Saturday 26th September Non-Verbal Reasoning

These look like out of catchment dates so do check with the school directly. If you want your child to sit the 11 plus exam for Gainsborough or Caistor you will need to register directly with the school. We can provide tuition for new and current students wanting to sit the exam this year (current Year 5s).

We will offer mock exams in July and August, dates to be confirmed nearer the time. To be included in these, please contact the office.

Early booking is advised to avoid disappointment. Please call us on 01724 375945 or visit our website for more information at www.tutoringscunthorpe.co.uk.

11 Plus

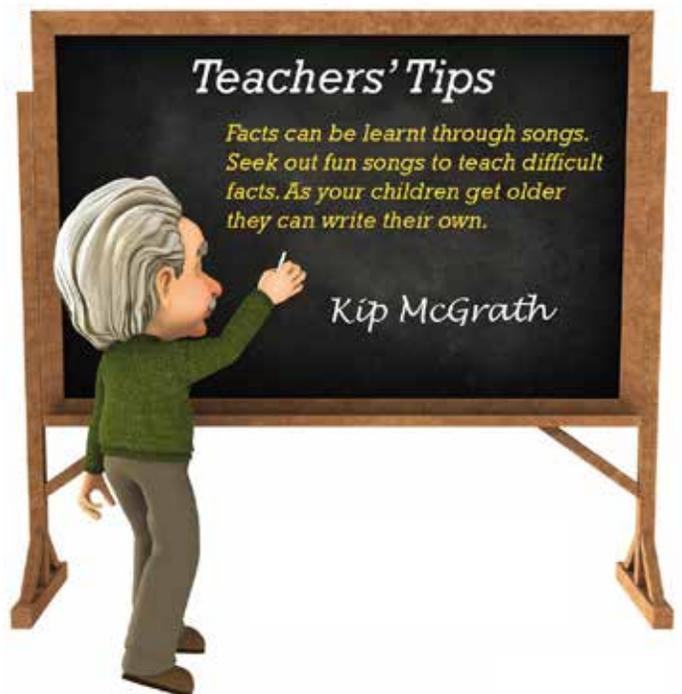

FORENSICS

We hosted another Crime Scene and Court room workshop in partnership with Zakon, the students had a great time and learnt about collecting evidence and how this is used in a courtroom.

Revision Tips...

- 1) Create a revision timetable
- 2) Work out whether you are a visual, kinaesthetic or auditory learner
- 3) Study with a friend
- 4) Make a PowerPoint/ video to explain what you know
- 5) Read your literature texts (several times)
- 6) Use mind mapping
- 7) Reward yourself with activities you enjoy
- 8) Use past papers to identify any topic gaps
- 9) Always plan essay questions in an exam room
